About Me

Technology excites me because it transforms lives. I'm especially interested in building systems that impact education, agriculture, and fintech. I'm also exploring voice-enabled apps and QR-based payment systems.

Programming Languages

C, Python, C++, HTML, CSS, JavaScript

Education

Student at Rongo University. Joining Second Year in September 2025.

Professional Interests

I enjoy developing educational tools, digital wallets, livestock management platforms, CBC grading systems, and civil engineering solutions.

Projects

1. Crop Management Tool

2. Digital Wallet

3. Livestock Manager

4. CBC Pro Ranker

5. Civil Engineering Tool

Links available on portfolio site.
